5-2-16

Dear Judge Jorgensen

I am writing you because I don't know what I should do about the problems I'm having finding adequate or competent counsel to represent me on my charges. As you know my first Attorney Coken Bradley was appointed to me on Dec 5th 2015 by the public defender's office, after she waived my preliminary hearing and found I wouldn't except a plea bargain she informed me she was retiring in May 2016 and she wouldn't be representing me for a July trial as she wouldn't have time - which was a huge waste of time, I'd also found she was talking with the district attorney and in my opinion trying to rush through my case and ignoring evidence to rush my case through the court before she retired.

The second attorney she assigned me was Bart Swardinski, who after speaking with the District Attorney once resigned from my case citing conflict of interest because he lives in neenah.

The 3rd Attorney Amanda Skorr I'd asked to speak with before my last status hearing, she said she would and didn't, she pleaded me not guilty and again status hearing with District Attorney and you without consulting me.

She came to see me 2 days later with a 60 year plea bargain, told me my medical records will not be allowed at trial, that you are not going to allow me to call my doctors and witnesses to

trial, she said I have 0% chance of winning my case and if my goal is to get out my story I can do that sentencing!

She said the only way to get my medical records allowed at trial is to change my plea to NGI on the next hearing on 5-16-16, I don't believe that, in fact I think the district attorney's office is purposely screwing up my case, and knowing it may mean the rest of my life in prison.

She also told me she don't have time for my case, that she's got a thousand other cases, that the district attorney's office "may" assign a second attorney but he will be a " rookie".

I fail to see how any of this helps. None of them except my phone calls or come see me to discuss strategy of the trial.

I think I could represent myself better and I'm not an attorney!

There is alot more she told me that I find unbelievable, a defence attorney to figure should defend me, not help convict me, she also told me if I speak to the media she will quit my case, well at this point I feel it's in my best interest to speak to the media as the police are and they are lying and have me found guilty already in the media.

In the interest of justice I now want the media part of all of my future court dates, so if people are doing things

③
They should let the public will know about it.
Also My lawyers have video evidence
they will not give to me or a handwritten form
told, I would like a copy of all evidence.

Now I don't know if what Amanda Scott
told me about you not allowing my witnesses
is true, and I do not believe I have to
plea Ngi to allow my medical records and
doctors part of my trial but none of it
isn't right.

At this point I feel I need to ask
again for a experienced, competent Attorney
that has the time to properly represent
me at trial.

There is alot more I want to say but
I think this is enough, this is all a huge
mess and my "lawyers" seem to be making
it a bigger mess.

It will be too late to say anything at
sentencing and I don't want to have to try
to fight this from prison in endless appeals.

If properly represented I believe I can
be found Not Guilty by a jury, once people
know what happened, once the real truth
comes out.

Please instruct the public defenders office
to give me adequate and competent defense
counsel, not a plea bargain attorney.

Thank you
Burt Tarter
