To Judge Tammy Jo Hock,

Re: Miles Jimmy Cruz (10-05-2004)

Case No: 21CF1861

Dear Judge Tammy Jo Hock,

After reviewing the case records from the Brown County District Attorney's Office, interviewing Mr. Cruz, and reviewing the mental health documents reviewed thus far, I feel it would be pertinent that a Psycho Sexual Evaluation be ordered for Mr. Cruz. The justification for this request is due to the nature of the offense, Mr. Cruz's age, and to evaluate his overall risk. This evaluation would allow this writer the ability to determine an appropriate sentence recommendation as it would apply to his risk. An evaluation would allow a targeted assessment of his mental health, sexual dynamics, and both his mitigating and dynamic risk factors, and how each might be related to each other. An order signed by the Court would allow the Department of Corrections Regional Psychologist to evaluate Mr. Cruz. The Department of Corrections is respectfully requesting a Psycho Sexual Evaluation and an extension of the Pre-Sentence deadline to allow time for this to be completed. Thanks for your consideration in this matter.

Sincerely,
